Education

Veer Surendra Sai University of Technology

Sept 2022 - May 2026

B.Tech. in Electrical Engineering

CGPA: 7.51

Tetrahedron Higher Secondary School

June 2019 - May 2021

Intermediate

Percentage: 92.3

Experience

Exposys Data Labs

May 2025 – June 2025

Full Stack Developer

- Developed and deployed a full-stack **MERN** application for micro-blogging featuring secure **user authentication using JSON Web Tokens**, protected routes, and persistent data management with RESTful APIs and MongoDB.
- Key features include **responsive, accessible** and thematic **Single-Page-App** interface using **React** (Vite) and Material-UI and real-time updates and seamless interaction with Express based backend with security middleware.

Technical Skills

Languages/Database: Javascript, C/C++, HTML, MySQL, MongoDB

Web Technologies: React.js, Next.js, Node.js, Express, Vite, Swagger(OpenAPI), Tailwind CSS, Bootstrap, Material-UI

Software & Tools: Azure, Postman, Git, Figma, CLI, Copilot, LLMs

Projects

Simplified-Jira | *React, Node.js, Express, MongoDB, MUI* [Git](#), [Live](#)

- Developed Simplified Jira, a full-stack project management tool for managing projects, tasks and team collaborations with **role-based access control**, deployed on **Vercel and Railway(GitHub-triggered)** for public access.
- Key features include project/issue management, isolated project-user mapping, user roles, and secure API integrations.

Anime-Saga | *HTML, CSS, Javascript*, [Git](#), [Live](#)

- Developed a fully responsive anime discovery web app with dynamic UI, animations, and an integrated mini-game.
- User can view Top Anime recommendation, search, view all details about any Anime or play an interactive quiz game.
- Utilized Jikan REST API to fetch and render anime data across various genres with **asynchronous JavaScript**.

File-Manager | *Node.js, Express, Azure Blob Storage, Swagger, Multer* [Git](#), [Live](#)

- Developed a RESTful File Management and storage tool featuring **OpenAPI** Specification based APIs supporting secure file upload, retrieval, and deletion, exposed to user via Swagger UI.
- Uses **Azure Blob Storage** for scalable cloud-based storage and Multer for encoding and file staging.

My Portfolio | *Tailwind CSS, React.js*, [Git](#), [Live](#)

- Built a personal portfolio with responsive design showcasing projects, skills, and career highlights.
- Implemented a contact form with validation to collect and store user messages for networking opportunities.

Certification

Microsoft Azure: Fundamentals(AZ-900) | [Link](#)

- Tested on knowledge of cloud concepts, Azure architecture, services, management, and governance.

HackerRank Certified: SQL (Basic) | [Link](#)

- Verified foundational knowledge in writing SQL queries, including SELECT, JOIN, GROUP BY, and basic subqueries.

Extra-Curricular Activities

Enigma | Web and coding club of VSSUT, Burla

May 2023 - Present

- Orchestrated the development of an interactive club website, integrating event management tools and social media feeds

VeerRacers Electric | Formula Student Team of VSSUT, Burla

May 2023- Feb 2024

- Technical member of powertrain department, actively worked on our first electric vehicle Zeus 1.0
